Reference for Francesco Pascale

I met Francesco Pascale while visiting the University of Salerno where I gave a Smart Course on Machine Learning and Bayesian Networks. Francesco attended this course and we collaborated on a research project resulting in a number of research papers (both conference and journal).

I found Francesco to be a polite and friendly student who performed excellently in my course and who behaved professionally throughout our collaboration and demonstrated technical skills and an enthusiastic attitude to learning and research.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Allan Tucker", written over a horizontal line.

Dr Allan Tucker, Senior Lecturer, Head of the Intelligent Data Analytics Groups
